- PC

## EDUCATION

---

**Bachelor of Science in Computer Science**  
Lewis University, Romeoville, IL  
Minor: Physics

Expected: May 2022  
GPA: 3.89/4.0

## PROJECTS

---

### Maze Game (Personal Project):

- Created a maze game using the 3D objects in Unity. The game has the player traverse a maze, and either fight or avoid enemies (represented by cubes) that followed the player as they tried to reach the goal. This project took about 2 weeks to finish.

### Tic-Tac-Toe Game (Personal Project):

- Created an interactive tic-tac-toe game using Java and the JFrame library. The program opens a separate window where the user can select two game modes. The game has two modes, "1P vs 2P" and "1P vs CPU". Once the user selects an option, the game opens a new window that contains the gameboard which allows the user, or the CPU, to select certain spaces to draw their mark. The game ends once either player gets a winning combination. This project took around 4 days to complete.

## EXPERIENCE

---

### Package Handler

FedEx Ground, Romeoville, IL

May 2019 – Present

- Work independently and with associates to load packages onto trucks that travel nationwide
- Load 300 packages per hour and verify their positions in transit with a handheld scanner
